A 31st RENEWED EDITION !

FIPA RETURNS TO BIARRITZ FROM THE 23RD TO THE 28TH OF JANUARY 2018 !

During 6 days, Fipa returns to Biarritz to discover, meet, share and inspire the professionals of the audiovisual sector and the public with a 31st edition even more festive, creative and friendly atmosphere.

More than ever, the Fipa affirms its positioning : **showing the diversity and transversality of international audiovisual creation focused on documentary, fiction, new writing and New Talents.**

Its even more demanding selection is a result of risks and intelligence, giving each year a real world panorama of audiovisual creation.

Besides the Official Competition there will be industry days and days for professionals to increase meetings, create more opportunities and inspire all professionals of the audiovisual sector and the public.

Innovation is of course always the keystone of Smart Fipa, the platform of trends dedicated to digital creation and new expression.

And at last but not least, Fipa reaffirms its commitment to the image education and New Talent, encouraging the emergence of tomorrow's talent.

And like every year Fipa has a focus on a country and in **2018, it will be Israel.**
